

BERKELOUW BOOKDEALERS

DESCRIPTIVE CATALOGUE,

1869.

DARLING NURSERY, SYDNEY.

TO OUR CORRESPONDENTS.

WE have, during the past year, considerably enlarged our collections, and rendered them as complete as possible, so that we are now enabled to offer many valuable novelties, not previously procurable in the colony, some of which are particularly mentioned in the first few pages.

Our Stock this season is unusually extensive and in splendid condition. Orange, Apple, Pear, and other fruit trees are in perfect health and above the average growth; and the ornamental department, comprising Conifers, Azaleas, Camellias, &c., never looked better.

Great reductions in price have been made, which we trust will enable our friends to plant liberally, and, as usual, our services are open to all those who may require advice or information regarding the improvement of their grounds and the selection of trees and plants suitable to the soil and climate for which they are intended.

Unknown correspondents are required to forward a remittance, or a well known Sydney reference with their orders.

No complaints will be entertained unless made within fourteen days after the receipt of goods.

PACKING.—Letters are continually reaching us from all parts of the world speaking in the highest terms of the excellence of our system of packing, and we need only add that no exertion will be wanting on our part to maintain the high reputation which this, the oldest nursery in Australia, has enjoyed since its establishment in 1827.

SPECIAL COLLECTIONS.

Collections of plants, &c., for small gardens will be made up with a view to securing a succession of bloom throughout the year. Particulars as to soil, locality, &c., should be furnished with the order. Such collections can be supplied at from £1 ls., and the usual liberal reduction on catalogue prices will be made in cases where large quantities are required.

The Trade most liberally dealt with.

SHEPHERD & CO.,

DARLING NURSERY.

SYDNEY, 1869.

NEW AND RARE PLANTS, FRUITS, &C.

A GREAT many of the plants under this head having only just been imported, will not be ready to send out till spring, when they will be supplied strictly according to priority of order.

NEW AZALEAS (INDICA.)

Charmer — Bright amaranth, being a color quite new in Azaleas and forming a charming contrast to ordinary kinds, 7s. 6d. each.

Etendard de Flandre.—White, flaked with scarlet, very distinct, 3s. 6d. each.

Flag of Truce.—A magnificent flower, pure white, large double and a free bloomer—the best of its class, 7s. 6d. each.

Gladstonesii.—White, with occasional red stripes, 3s. 6d. each.

Madame Dominique Vervaeke.—Most perfect form of a soft rose-color, the upper petals spotted with bright red purple; it is also striped with lilac and red and margined with white, 7s. 6d. each.

Stella.—A vigorous growing variety of a bright orange scarlet stained with rich violet on the upper segments of the corolla—one of the best in cultivation, 5s. each.

NEW CAMELLIAS.

Selected from the best collections in Europe and just received from our London correspondent in excellent condition, and we hope to be able to supply small plants of most of the varieties in the spring; price, 10s. 6d. each, *unless otherwise marked.*

NEW ROSES.

Alba Mutabilis.—White, tinged with rose, large and full, 5s. each.

Duchesse de Morny.—Deep rose, large and full, 3s. 6d.

Jean Cherpin.—Velvety purplish red, shaded with scarlet, free grower, 3s. 6d.

Madame Falcot.—Nankeen, changing to yellow, 2s. 6d.

Madame Rival.—Beautiful satin rose, 2s. 6d.

Madeline Nonin.—Rose, tinged with salmon, good form, 3s. 6d.

Marechal Neil.—Beautiful deep yellow, large, full, and of globular form, highly perfumed, 3s. 6d.

Paul Verdier.—Bright rose, large and full, 2s. 6d.

Souvenir du Dr. Jamin.—New, being in color bluish violet, large, full, and well formed, 5s.

NEW FUCHSIAS.

Alliance.—Bright carmine tube and sepals—the latter reflexed—double purple corolla; price, 3s. 6d.

Pillar of Gold.—Most distinct variety yet introduced, its chief attraction consisting in its beautiful and richly variegated foliage; flowers, pale red; price, 10s. 6d. each.

LILIUM AURATUM.

We have just received in admirable condition a consignment of the lovely and fragrant golden-rayed Japanese Lily, justly regarded as the queen of this wondrous race—strong bulbs, 10s. 6d. each.

Lily of the Valley (Convallaria Majalis).—We have now a good stock of this beautiful and graceful little favorite—strong tubers, 2s. 6d. each.

NEW HIPPEASTRUMS (Amaryllus.)

We have much pleasure in offering the following splendid new hybrid Hippeastrums, recently imported from Mauritius. They form quite a pleasing contrast to the old varieties, embracing as they do the most brilliant and beautiful shades of color, which for richness and variety can hardly be surpassed. They are perfectly hardy, grow freely in any well-drained soil, and keep up a succession of bloom for several months in the year. The bulbs at our disposal are necessarily only of moderate size, and very scarce.

Achilles.—Maroon scarlet, broad white stripe, fine. 3s. 6d.

Adonis.—Rich maroon scarlet, white striped, fine and full. 5s.

Attila.—Flesh, maroon feathered. 3s. 6d.

Beauties Bloom.—Maroon and straw, finely striped, reflexed. 5s.

Blushing Beauty.—White, shaded with cream and crimson, feathered. 5s.

Brilliantissima.—Blood and flesh flaked and dappled, splendid. 7s. 6d.

Cherub.—Crimson, white striped. 3s. 6d.

Diadem.—Deep crimson scarlet, very rich. 5s.

Dorothy.—Magenta. 3s. 6d.

Fascination.—Brilliant crimson scarlet, white centre, 5s.

Glitter.—Cream, maroon feathered, fine. 5s.

Goddess.—Canary, maroon feathered, reflexed. 5s.

Iago.—Maroon, white striped and feathered. 3s. 6d.

Isabella.—Brilliant scarlet, white centre, fine. 5s.

Lustre.—Rich velvety crimson, splendid. 7s. 6d.

Mary Constance.—Deep crimson, small white stripe in centre. 5s.

Meteor.—Deep crimson scarlet, reflexed and full, splendid. 7s. 6d.

Nancy.—Nankeen, maroon feathered. 3s. 6d.

Nonpareil.—Cream, crimson striped and feathered, fine. 5s.

Reflexa.—White, maroon striped and feathered, reflexed. 5s.

Rosalie Jane.—Rich violet purple, broad white stripe. 5s.

Sunset.—Rich purple crimson, white striped and feathered, 5s.

Victorious.—Violet crimson, white striped and dappled, splendid. 7s. 6d.

Vivid.—Rich crimson. 3s. 6d.

Warrior.—Rich crimson, white centre. 3s. 6d.

STRELITZIA ANGUSTA.

Healthy young plants of this gorgeous and majestic flowering plant can now be supplied price 10s. 6d.

CASIMIROA EDULIS.

A large fruit like an apple. There is every probability of this tree becoming perfectly hardy in Australia, being evergreen, and capable of standing any amount of drought. It is a native of Mexico, where it bears immense crops of fruit. 2ls. each

MYROXYLON PIREIRA (Balsam of Peru), 2ls.**PARMENTIERA CEREIFERA.**

This extraordinary plant produces fruit from two to four feet long and about an inch in diameter, of a yellow wax-color, which serves as food for cattle. It was found in the valley of the River Chagres, Isthmus of Panama, where it is designated "Palo do Velas" (Candle Tree). 2ls. each.

PODOCARPUS THUNBERGIA.

A recent introduction, and certainly the most graceful of the tribe. 5s. each.

ZIZYPHUS JUJUBA (JUJUBE), 10s. 6d.**GRAPE VINES.**

We hope to be able to supply plants of the following in the Spring, and have every reason to believe that they will prove a valuable acquisition :

Black Monukka.—Very large bunches, seedless, sweet, fine table grape. 5s.

Calabrian Raisin.—Bunches large, long, and tapering (often over a foot in length), berries large and round, white, juice sugary. A valuable grape on account of its late keeping qualities. 5s.

Chaptal.—Bunches and berries large, white, juicy, and sweet. A new French grape of excellent quality and a great bearer. 5s.

Chasselas Vibert.—Berries round, very large, of a fine golden amber color, flesh juicy, rich, and agreeable, a robust grower and excellent grape. 5s.

Chasselas de Fontaineblau.—Bunches long, berries large, round, and of a greenish yellow, flesh tender and juicy, sweet and richly flavored, one of the best table grapes. 5s.

Foster's White Seedling.—Berries large, sweet, and richly flavored. 5s.

Golden Champion.—The largest grape known, flavor rich and excellent. 2ls.

Muscat Abercainey.—5s.

Muscat Candia.—5s.

GUINEA GRASS (Panicum Maximum.)

We introduced this splendid grass in the latter part of 1867, since which time we have distributed hundreds of plants, and there appears to be but one opinion as to its quality, and that is that it is the best forage plant ever introduced. It bears cutting several times in the year, is a most rapid grower, stands the most severe droughts, and is eagerly eaten by all kinds of stock. Plants established in pots, 6s. per dozen ; seed, per post or otherwise, 1s. per packet.

CONIFERS AND TAXADS.

NOTHING can surpass Conifers, either for providing shelter or for purposes of general ornamentation. A large proportion of the species are so thoroughly hardy in this and the sister colonies, that perhaps less loss is sustained in planting them than with almost any other tribe of plants. As a rule, Conifers prefer rather elevated situations, and soil varying from light to strong loam. Some few species, however, succeed well in marshy low lands. We desire to call attention to the great reduction in prices generally throughout this, and, in fact, all the divisions.

Name.	Height in feet.	Price each. s. d. s. d.
Abies Alba.. ..	40 to 50	1 6
„ balsamea	45 to 60	3 6
„ Cephalonica	60 to 80	2 6 to 3 6
„ coerulea	20 to 30	2 6 to 3 6
„ communis	40 to 100	3 6

„ Pinaster ..	50 to 60	1 6
„ Pinea ..	50 to 60	1 6
„ ponderosa ..	80 to 100	2 6 to 3 6
„ Pyrenaica ..	50 to 60	3 6
„ rigida ..	80 to 100	1 6 to 2 6
„ sabiniana ..	100 to 120	7 6
„ sp. Mexico ..	50 to 60	2 6
„ strobilus ..	50 to 60	3 6
„ sylvestris ..	80 to 100	2 0 to 2 6
„ tenuifolia ..	80 to 100	3 6 to 5 0
„ tuberculata ..	100	3 6

Highly desirable for ornamental and park planting generally. A few of the species may be considered as the most suitable of all trees for the purpose of affording shelter in elevated and much exposed situations. These are Halepensis, Maritima, Pinaster, and Pinea. Some of the tribe also form very beautiful trees, and foremost of these are Canariensis, Insignis, Longifolia, and Tenuifolia. The whole tribe do well in this and the sister colonies, and can hardly be too highly recommended. Many of these are offered for the first time in the colony.

Podocarpus cupressinus ..	50 to 60	5 0
---------------------------	----------	-----

Name.	Height in feet.	Price each. s. d. s. d.
Podocarpus ferrugineus ..	40 to 50	2 6
„ pungens ..	4 to 6	2 6
„ spinulosus ..	50 to 80	2 0 to 2 6
„ sp. N. Caledonia ..	15 to 20	3 6 to 5 0
„ sp. N. Zealand ..	50 to 60	3 6
„ Totara ..	60 to 80	2 6

A fine showy tribe of ornamental trees.

Prumnopitys elegans ..	50 to 60	3 6
Retinospora obtusa ..	60 to 80	3 6
„ pisifera ..	20 to 30	3 6
„ squarrosa ..	20 to 30	3 6

These are late introductions from Japan, of graceful, compact habit, and likely to become great favourites.

Salisburia adiantifolia ..	80 to 100	5 0
„ macrophylla lacinata ..	60 to 80	10 6
Sciadopitys verticillata ..	60 to 70	10 6

Umbrella pine. This is a most remarkable and distinct Conifer.

Sequoia sempervirens ..	150 to 200	5 0
Taxodium distichum ..	50 to 100	5 0
„ virens ..	30 to 40	5 0
Taxus baccata ..	15 to 20	1 6 to 2 6
„ „ variegata aurea ..	10 to 12	3 6
„ elegantissima ..	10 to 12	3 6
„ japonica ..	10 to 12	1 6 to 2 6

Yew tribe, forming highly ornamental shrubs of dense habit, very suitable for grass plots or lawns of limited extent.

Thuja Doniana ..	30 to 40	5 0
„ flagelliformis ..	15 to 20	3 6
„ glauca ..	30 to 40	5 0
„ Knightii ..	50 to 60	3 6
„ Lobbii ..	60 to 100	2 6 to 3 6
„ Occidentalis ..	40 to 50	3 6
„ Orientalis ..	30 to 40	1 6 to 2 6

CLIMBING PLANTS.

Climbing plants are highly desirable in all gardens, their graceful habit adding much to the general appearance. They can also be trained at will, and, when necessary, be made to shut out any object which may be considered objectionable.

Good selections, when left to our own choice, can be supplied at from 18s. per dozen.

Very showy flowering plants, can hardly be surpassed for splendour of bloom.		

HERBACEOUS AND SOFT WOODED PLANTS.

For small gardens, this class of plants is highly desirable, and, in fact, should be liberally distributed throughout all plantations of an ornamental character; by their aid a succession of bloom can be kept up throughout the year. For cut flowers they are indispensable.

AZALEAS.

This beautiful tribe of plants will grow readily in sandy loam or peat, sheltered from hot winds—if of a moist nature all the better. Many of those included in the list below are of recent introduction, and form a very pleasing contrast in color and general appearance to the old varieties.

Good selections will be supplied at from 12s. per dozen.

CAMELLIAS.

Our stock of this beautiful and favorite Flowering Shrub is the largest in the colonies, both as regards variety and quantity. The accompanying List includes several of the choicest varieties in cultivation, many of which have been recently introduced. Our climate is particularly adapted to this plant, as it flowers magnificently in the open border, the only care necessary being to afford shelter to the young plants for the first year after planting.

ROSES.

Our stock of Roses is unusually fine this season, and embraces all the best and newest varieties in the Colonies. The demand for this deservedly favorite flower continues steadily to increase, and we have been encouraged to order from our London Agents all the newest varieties of merit; some of those have already come to hand, but not in time to enable us to offer them for sale this season.

We should recommend intending purchasers who are not acquainted with the many different varieties of Roses to leave the selection to ourselves, when we should always be most careful to supply a collection of the best and most varied description.

HYBRID PERPETUAL.

Prince Arthur	Maroon, white striped, fine
Shepardi	Dark red, very fine.

2s. 6d to 3s. 6d each.

BULBS AND TUBERS.

Bulbs are very useful for keeping up a succession of bloom, and require very little care. A label or stake should always be placed to indicate the position in which bulbs are planted, otherwise they are very likely to be injured when in a dormant state, either by hoeing or digging

FRUIT TREES.

To this branch of our business we have given a very large share of care and attention, and can now, with confidence, assert that our collections will bear favorable comparison with those of any establishment in the Southern hemisphere, either as regards variety, quality, health of stock, or correctness in naming, to secure which we have, within the last seven years, renewed the entire stock by importations from the first nurseries in the world, the proprietors of which we carry on regular correspondence with, and receive every year consignments of the most esteemed varieties as they make their appearance.

MEDLARS.

This fruit should be gathered when full grown, and kept till it gets quite soft before placing on the table.

									s	d.
Dutch	Very large	1	6
Nottingham	Small flavor, brisk and good	1	6

QUINCES.

A most useful fruit for preserves, and culinary purposes

						s	d
Apple shaped	Excellent for stewing	1 6
Pear shaped	Large and good, not so juicy as the apple shaped	..		1 6
Large Portugal	.	..		Very large and good	1 6

ALMONDS.

Brandon's Jordan	1	6		New Nonpareil	1	6
Jordan	1	6		Paper Shell	1	6

The quality of the fruit of all these varieties is somewhat similar, the chief difference being in the hardness of the shell, the Jordan being the hardest, and the Paper Shell the softest.

GRAPE VINES.

The lists of Grapes are so fearfully confused with synonyms, that mistakes are constantly being made in ordering collections. Some of our best known kinds having no less than 20 synonyms, thus the same Grape is frequently ordered under half-a-dozen different names. We insert below the names best known in the colony, and will be happy to set correspondents right, in cases where such mistakes occur. Cuttings of all the choice old varieties will be supplied at 5s. per 100. Rooted plants, 6d. each; 30s. per 100; or, £10 per 1000. Those specially priced in list cannot be supplied in large quantities, but a reduction will be made when ordered by the dozen. We include only really good and useful kinds in this list, but our collection numbers some 120 varieties.

Black Damascus	Berries large, rich flavor, rather shy bearer
„ Hambro	Without doubt, the most useful grape in the colony, sure cropper and fine flavor
„ Prince	Berries large, oval, juicy, good flavor, excellent table grape
„ Tripoli	Bunches large, very sweet and juicy, 1s.
Bowood Muscat	Same character as Muscat of Alexandria only a better bearer, 1s.
Buckland's Sweetwater	Bunches large, flesh tender, well flavored, 1s.
Chasselas	Large berries, sweet and juicy, excellent table grape
Duchess of Buccleugh	Bunches long and tapering, flesh tender and juicy, with a rich muscat flavor, good cropper, imported in 1867, and fruited this year in our Nursery, 5s.
Golden Hamburgh	Flavor rich, sugary and vinous, an excellent grape, but requires judicious management to secure a crop, 2s. 6d.
Gonais	A grape celebrated for producing the finest brandies
Hermitage or Shiras	Large oval, flavor sugary, with a delicious aroma, and furnishes the celebrated Hermitage wine, and is also good for table.
Isabella	A peculiar flavored grape, highly esteemed in America, an immense grower and abundant bearer
Josling's St. Albans	Flesh firm, rich, sugary, with a high muscat flavor, excellent table grape, 1s. 6d.
Lady Downes' Seedling	Bunch and berry large, richly flavored with a slight trace of muscat, first class table grape, hard and a sure cropper, 1s. 6d.
Muscat of Alexandria	One of our finest flavored table grapes, but requires careful cultivation to secure a good crop
Muscatel Black	The muscat flavor is so well known that it is unnecessary to describe it here, Muscatels and Frontignals are synonymous
„ Red
„ White
Royal Vineyard	Agreeable sweetwater flavored with a tinge of muscat, vigorous grower, and promises to be a first class table grape for this climate, imported by us in 1867, since which time it has made an extraordinary growth, 5s.
Shepherd's Reisling	A most useful white grape for this climate, can hardly be misplaced, and is good either for table or wine
Snow's Muscat Hambro	Or perhaps better known as Black Muscat of Alexandria, large berry, flesh melting, juicy, rich, and sugary, with an exquisite muscat flavor, a first class grape, 1s.
Sweetwater	A useful old white grape, much grown and highly esteemed for its flavor, but fails in some situations
Trentham Black	Melting flesh, rich, sugary, and vinous, an excellent table grape, 1s. 6d.
Verdeilho (Madeira)	A small berried grape of great excellence, from which the Madeira wine is chiefly made, very sweet, very hardy
Wantage	Bunches large, pile red, very hardy and free bearer
White Sherry	A most useful grape either for table or wine, hardy, abundant bearer, and altogether one of the best grapes in cultivation
Ullade	Very fertile and good, an excellent table grape

STRAWBERRIES.

British Queen	Fine high flavored variety, 7s. 6d. per 100
Carolina Superba	Resembles B. Queen, larger, 10s. per 100
Duc de Malakoff	Very large, good, 8s. per 100
Clearor, or Myatt's Eliza	Large and handsome, 7s. 6d. per 100
Empress Eugenie	Very large, rather coarse, 7s. 6d. per 100
Eclipse	Very fine, not to be surpassed, 5s. per 100
Fertilised Hautboy	Very large and fine, 6s. per dozen
Frogmore, late pine	Handsome, late variety, 7s. 6d. per 100
I X L	Earlier and larger than B. Queen, 10s. per 100
Keen's Seedling	Fine flavor, very hardy, 5s. per 100
La Reine	Fruit long and excellent, 5s. per 100
La Constant	Late and excellent, 10s. per 100

Marguerite	Splendid size, 3½ oz. each fruit, 5s. per 100
May Queen	Small, but perpetual bearer, 5s. per 100
Myatt's Pine Apple	Medium size, flavor magnificent, 5s. per 100
„ Surprise	Rather coarse, 10s. per 100
Oscar	Excellent flavor, great cropper, 5s. per 100
Omar Pasha	Rich flavor, fine, 7s. 6d. per 100
Princess Royal	Medium size, fine flavor, 10s. per 100
Prince Arthur	Fine free bearer, good flavor, 7s. 6d. per 100
Rifleman	Fine flavor, hardy and good bearer, 10s. per 100
Sir Harry	Large and excellent, 5s. per 100
Trolopp's Victoria	Valuable early fruit, immense bearer, one of the best in cultivation, 7s. 6d. per 100
White Chillian	Large, but coarse, 5s. per 100
